Vatican City is on track to become the 8th country in the world to generate 100% of its electricity from renewable energy, following Pope Francis" announcement about plans to build a large solar plant.

Pope Francis has ordered the construction of a solar power plant to supply the Vatican"s electricity needs. He did so with the apostolic letter in the form of Motu proprio Fratello Sole,...

One of the most notable solar projects in Vatican City is the solar roof of the Paul VI Audience Hall. The photovoltaic panels installed here generate approximately 300,000 kilowatt-hours of ...

A solar panel system is being built on the 424 hectares of extraterritorial land in Ponte Galeria, which within a year will make the Holy See the first zero-emission ...

By May 29th, 2025, that vision was fulfilled, and the Vatican City became one of the only fully solar-powered states in the world, setting a clear ...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough ...

It asks the Church, and the world, to imagine a future where the power that lights the Vatican"s basilicas comes not from fossil fuels, but from the sun that shines on its fields.

By installing solar panels in our 42 parish churches, the diocese will try to avoid 191 metric tons of carbon dioxide emissions over the next 25 years through the generation of ...
