Sweden"s largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have ...

Ingrid Capacity, renowned for optimizing grid-scale battery storage and flexible assets across Europe, entered a strategic partnership with SEB Nordic Energy in September 2024, ...

The Elektra Energy Storage Project, Sweden"s largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary services to help balance ...

In March, a 50 MW/100 MWh expansion project was announced for the Boden industrial park between Bodens Energi, Vattenfall and Polar Structure, thus breaking the record for announced ...

Two of the Nordic country"s biggest battery energy storage projects have been announced just days apart.

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, efficient and sustainable energy future.

It is an honor to inaugurate the largest energy storage investment in the Nordic region. Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling ...

Sweden"s largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW ...
