Our Outdoor Cabinet Energy Storage System emerges as an innovative, efficient, and reliable solution to meet these needs. Whether for remote areas, industrial sites, or residential communities, our ...

Introducing our 50kW / 100kWh high-voltage outdoor energy storage solution designed for commercial and industrial (C& I) applications.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

Highjoule's Commercial and Industrial Energy Storage System adopts an integrated design concept, integrating batteries, battery management system BMS, energy management system EMS, modular ...

Enhance your energy storage capabilities with our cutting-edge 50kW/100kWh outdoor cabinet energy storage system. With a rated AC power of 50kW and a rated capacity of 100kWh, this system boasts ...

This modular design enables easy expansion to meet growing energy storage needs without significant changes to the existing infrastructure. It is ideal for ...

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...
