What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site, typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.

What is a telecom cabinet & why is it important?

Security: Telecom cabinets often contain valuable or critical infrastructure, so robust security measures are essential. This includes tamper-resistant locks, alarms, and surveillance.

Our outdoor telecom cabinets ensure a good fit and perform well in the field. With features like weather resistance, dust protection, and vandalism resistance, the cabinet offers enhanced thermal ...

At ISST, we deliver cutting-edge energy, passive infrastructure, and data center solutions that enable smarter, more sustainable growth. Since 2018, we've been committed to supporting critical sectors ...
