We build both stand-alone energy storage systems and PV-plus energy storage systems. We also provide added value to our clients by offering integrated projects, like an energy storage solution ...

Flexible Applications: The system supports multiple scenarios, such as peak-valley arbitrage, microgrids, and renewable energy integration, with a response time under 100ms for ...

We build both stand-alone energy storage systems and PV-plus energy storage systems. We also provide added value to our clients by offering integrated projects, like an energy storage ...

This latest 2MW/4MWh project features a flexible solution with 20 units of 100kW/215kWh cabinets, breaking away from traditional containerized ...

Built, tested and optimized for the North American market for commercial projects. Equipped with integration controls for solar PV and generators. Backup power-ready and designed to support ...

This latest 2MW/4MWh project features a flexible solution with 20 units of 100kW/215kWh cabinets, breaking away from traditional containerized systems.

Flexible Applications: The system supports multiple scenarios, such as peak-valley arbitrage, microgrids, and renewable energy integration, with a ...

This cabinet is ideal for renewable energy installations, microgrids, and energy storage systems that require efficient and quick switching between grid-connected and off-grid modes for backup power or ...
