These versatile Rectifier Modules function as either power supplies or battery chargers for 12, 24 or 48 volt systems; positive, negative or floating ground. They may be employed singly or in ...

A primary advantage of implementing 48 V rack power architectures is the improved energy efficiency they provide. Unlike the traditional 12 V DC ...

48V 100Ah LiFePO4 rack battery featuring Active Balancing, Bluetooth, LCD display, and smart comms. Premium performance designed for home energy storage at better value.

48V 100Ah LiFePO4 rack battery featuring Active Balancing, Bluetooth, LCD display, and smart comms. Premium performance designed for home energy storage at better value.

These versatile Rectifier Modules function as either power supplies or battery chargers for 12, 24 or 48 volt systems; positive, negative or floating ground. ...

ATX's Areca R Series Rackmount Hybrid Supercapacitor Modules are designed for 48V environments and are compatible with existing powering systems, enabling service providers to seamlessly and ...

Mpc22163-130 - Two-Phase Intelli-Module with Quiet Switchertm TechnologyMpc22166-130 - Two-Phase Intelli-Module with Quiet Switchertm TechnologyMpc22167 - 130A, Two-Phase, Intelli-Moduletm with Quiet Switchertm TechnologyThe MPC22166 is a non-isolated, step-down power module with 130A of continuous peak output current. This module integrates driver MOSFETs and an inductor in a compact package to save layout space and achieve a higher power density. It is scalable for many modules in parallel, up to 2kW+ of power. The 4mm maximum height makes it suitable for many ap...See more on monolithicpower ATX NetworksAreca R Series 48V Rackmount Hybrid SupercapacitorSee MoreATX's Areca R Series Rackmount Hybrid Supercapacitor Modules are designed for 48V environments and are compatible with existing powering systems, enabling service providers to seamlessly and ...

In order to meet the industry's new power requirements, MPS has developed a new power architecture, using a 48V distribution voltage that is capable of a 16x reduction in power distribution losses, in ...
