Experience industrial-grade power reliability: Our 48V 150Ah cabinet lithium battery delivers 7.68kWh of high-density storage in a robust, free-standing design.

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Our battery is designed to replace conventional solar battery storage products such as Sealed, AGM, or Gel batteries, ...

The SBS rack/cabinet mounted lithium energy storage battery uses high cycle lithium iron phosphate cells, high-performance BMS protection and battery management system.

Experience a paradigm shift in energy storage through our innovative 48V cabinet lithium battery, a marvel designed to revolutionize your energy landscape. Unveiling ...

It is suitable for larger homes or small commercial offices with moderate energy needs. This system supports longer backup durations and efficient load management.
