Highly efficient, modular, high-density 200kW (400/480V) 3-phase UPS that is scalable up to 500kW. It delivers top performance for medium, large, and edge data centers, as well as ...

KDST's power system cabinets offer flexible internal configurations to accommodate various electrical components, including inverters, DC combiner boxes, disconnect switches, fuses, ...

From small-scale applications to large telecom infrastructures, Powerbox is dedicated to powering the telecommunications industry with innovative, robust, and tailored power solutions that drive ...

From small-scale applications to large telecom infrastructures, Powerbox is dedicated to powering the telecommunications industry with innovative, robust, ...

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

Our DC-UPS systems safely bridge power failures of up to 30 hours and ensure a reliable and uninterruptible power supply for automation components. This enables plant processes or ...

The DPA 500 delivers power protection from 100 to 500 kW (one to five modules) in a single cabinet (vertical scalability). Cabinets can operate in a parallel ...

Our DC-UPS systems safely bridge power failures of up to 30 hours and ensure a reliable and uninterruptible power supply for automation components. This enables plant processes or ...
