Do you carry IP55 enclosures?

We carry IP55 enclosures that demonstrate almost complete protection from particles and a good level of protection against water. All of our enclosures rigidly adhere to the guidelines, so you can count on outstanding and cost-effective enclosures. Refer to the chart below for the IP55 standard protection specifications and ratings:

Who makes NEMA rated IP55 enclosures?

Nema Enclosures manufactures quality custom and standard NEMA-rated IP55 enclosures. Contact us today to learn how we can expedite a custom enclosure and produce cost-effective standard NEMA-rated enclosures to protect your equipment. Questions?

What is a standardized IP55 protection code?

The IEC's standardized International (or Ingress) Protection Code system is used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit). Continue reading to learn more about IP55 Standard Protection Specifications.

What does the second digit mean in an IP55 enclosure?

The second digit indicates the extent of protection against water. We carry IP55 enclosures that demonstrate almost complete protection from particles and a good level of protection against water. All of our enclosures rigidly adhere to the guidelines, so you can count on outstanding and cost-effective enclosures.

We manufacture electrical enclosures for the oil & gas industry, ATEX-certified and IP-rated to perform in harsh, explosive, dusty, and wet environments.
