Our macro cell antenna portfolio supports a wide range of frequencies, RET (Remote Electrical Tilt), multi-band operations, and massive MIMO capabilities -- all tailored for demanding ...

Upgrade 5G base station power in outdoor, indoor, and shared cabinets with custom rectifier module solutions for efficient, scalable, and reliable performance.

A carrier-grade wireless base station for deploying 5G mmWave networks of superior throughput and near-zero latency. Weather-resistant, perfect for outdoor and macro cell scenarios.

The advanced reconfigurable technology used in CableFree 4G & 5G base stations is highly flexible but certain combinations of bands and modes may require extra ...

The advanced reconfigurable technology used in CableFree 4G & 5G base stations is highly flexible but certain combinations of bands and modes may require extra hardware, have certain restrictions in ...

Optimized for sub-1 GHz frequencies, these solutions improve coverage, reduce deployment costs, and support reliable connections for increasing wireless demand. Designed for next-generation macro ...

The base station cabinet contains as many as six RF modules. These multicarrier modules support GSM-R 5.0 and the enterprise LTE (eLTE). Use of this multi ...

Optimized for sub-1 GHz frequencies, these solutions improve coverage, reduce deployment costs, and support reliable connections for increasing wireless ...
