What is a 5G outdoor integrated cabinet?

5G Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Lockable front door with rubber seal, with AC or DC Air conditioner mounted on the door. Support custom-made.

What is an outdoor macro base station?

This outdoor macro base station supports both GSM-R and LTE -- the ideal solution for railways that want to prepare for evolution to an LTE broadband network. One of the most compact outdoor macro base stations in the industry, it features a large, scalable capacity and multi-mode applications that meet the requirements of long-distance railways.

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions, impacts and other factors.

What is a dual-band Compact Macro modem?

With the new modem, the dual-band Compact Macro supports an ultra-wide 1,600MHz spectrum- double the bandwidth than compared to its predecessor. Furthermore, the new RFICs enable four times better output per beam for higher throughput and both the RFICs and DFE-RFICs are key to keeping the same size as before as well as reducing power consumption.

5G intelligent power cabinets are widely used in communication base stations. They are composed of cabinets, embedded switching power supplies, backup lithium iron phosphate batteries, ...

5G Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, ...

Samsung's Compact Macro is an unparalleled solution for rolling out mmWave 5G services. It's an innovative product that integrates the baseband, radio and ...

5G Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow ...
