With capacities ranging from 50 kWh to over 5 MWh, our C& I All-in-One BESS offers flexible configurations, seamless scalability, and grid-friendly functionality.

Highly scalable and customizable, our battery energy storage system solutions can be tailored to specific capacity needs, supporting both on-grid and off-grid operations.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.

The guide is divided into three main sections: construction and installation, commissioning, and operation & maintenance. It covers various aspects such as foundation construction, battery and ...

Turnkey 2.5MW / 5MWh battery energy storage system in prefabricated 40ft container. Includes PCS, transformer, EMS, HVAC, and fire protection. Ideal for grid-tied/off-grid industrial use.

It is equipped with an advanced liquid cooling system that provides effective and efficient pack-level thermal management. The battery system is packed into a ...
