It has an optimized layout for efficient power distribution, precise intelligent protection, a structure convenient for maintenance, and is suitable for multiple scenarios.

Features: Wide application range, strong adaptability, high reliability, long life time, high efficiency and energy saving; low harmonic, low temperature rise, low fault rate; light weight, small ...

Features: Wide application range, strong adaptability, high reliability, long life time, high efficiency and energy saving; low harmonic, low temperature rise, low fault rate; light weight, small volume, ...

It is suitable for motor control, power distribution, and energy management. This product adopts a modular structure, featuring high safety, strong stability, and ...

PRODUCT OVERVIEW Model GCS low voltage draw out switchboard is used in three-phase AC frequency 50Hz, rated operating voltage 400V (690V), rated current to 3150A power supply ...

It is suitable for three-phase AC 50Hz, rated voltage 690V and below, rated current 4000A and below, in three-phase four wire system or three-phase five wire system and other power ...

As one of the leading power distribution cabinet manufacturers and suppliers in China, we warmly welcome you to wholesale power distribution cabinet in stock ...

With over 20 years of experience in the power distribution equipment industry, we specialize in producing high- and low-voltage switchgear, distribution boxes, substations, and other related ...
