What companies are in Aarhus & Aalborg?

Aros Commodities, Pure Power Trading, Aarhus Energy and Asgard-- mostly owned by ambitious young founders -- were all established in Aarhus and Aalborg in 2023. The harbour area in Aarhus, home to InCommodities and several other energy trading companies © Lars Just/FT

What's new in Aarhus & Aalborg?

New breed of traders in Aarhus and Aalborg are using algorithms to navigate volatile and rapidly growing market Simply sign up to the Renewable energy myFT Digest -- delivered directly to your inbox. The trading floor of InCommodities, on a commercial estate in the Danish city of Aarhus, shows off a dynamic, new side of Europe's energy markets.

What is Danish Center for energy storage?

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen cooperation, sharing of knowledge and establishment of new partnerships between companies and universities.

Can Denmark deliver to a green transition in energy storage & conversion?

But if Denmark really shall deliver to the green transition within energy storage and conversion, in times characterized by extreme pace and changeability, we must stand together and walk together. DaCES ensures the necessary cohesion that makes it happen. Lars Ottosen, Head of Department and Professor, AU Biological and Chemical Engineering

As Denmark's second-largest city, Aarhus has emerged as a laboratory for renewable energy innovation. The local government's 2030 carbon neutrality pledge fuels demand for advanced energy ...

This article explores the costs, trends, and benefits of photovoltaic (PV) systems and energy storage in Aarhus, providing actionable insights for homeowners, businesses, and renewable ...

That's exactly what Aarhus-based energy storage systems aim to achieve. As Denmark pushes toward carbon neutrality by 2050, innovative power production models combining battery storage, smart grid ...
