**Supplier highlights:** This supplier is both a manufacturer and trader, exporting mainly to Germany, the United States, and Switzerland, offering full customization and quality control services with local after ...

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

**Product Features:** Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

**Application:** frequency regulation, voltage support, renewable energy integration, peak load shifting, microgrid and backup power supply. Charging/discharging rate: 1C, 0.5C, etc.

Our outdoor telecom cabinets ensure a good fit and perform well in the field. With features like weather resistance, dust protection, and vandalism resistance, the cabinet offers enhanced ...

Our outdoor cabinets are pre-assembled for quick deployment and can operate reliably under wide temperature ranges. They ensure stable energy storage performance in challenging climates, ...

From initial configuration design to after-sales service, we help commercial users reduce operating costs, enhance energy resilience, and achieve long-term ROI.
