---

Finland's large-scale solar capacity more than doubled in 2025, buoyed by the commissioning of the country's first solar projects larger than 50 MW. Another record year for ground ...

The Energy Authority estimates that nearly 30,000 single-family houses were fitted with solar power equipment last year. The estimate is based on preliminary data collected from network ...

The company specializes in high-quality solar energy systems, offering complete packages that include solar panels and battery storage for optimal performance and energy use.

In a country better known for snowdrifts than sunbeams, solar power might seem like an unlikely success story -- yet Finland is quietly engineering a renewable ...

In a country better known for snowdrifts than sunbeams, solar power might seem like an unlikely success story -- yet Finland is quietly engineering a renewable energy surge that defies its latitude.

Explore the rapid growth of solar power in Finland, backed by EUR16.6M in subsidies. See how Finland's solar energy strategy is paving the way to ...

The solar power plant on the roof of the Hitachi Energy Park transformer factory is supplied by Solnet, a company that provides future-proof solar PV and battery energy storage ...

According to the latest project listing by Renewables Finland, nearly 26 gigawatts (GW) of utility-scale solar power are planned in Finland. In total, more than 300 solar power projects are ...
