---

Combining Eaton power conversion units and the equivalent of 148 Nissan LEAF batteries, the energy storage system not only enables a more sustainable energy system, it also creates a circular economy for electric vehicle batteries.

From grid-scale installations to smart commercial solutions, Amsterdam makes energy storage batteries that combine Dutch engineering precision with sustainable innovation.

GIGA Storage officially opened its third major energy storage project this week. Located in Amsterdam's Westelijk Haven area, this battery is the largest in the city. The ...

In Amsterdam's Western Port, the Giraffe battery system has officially come online. Developed by GIGA Storage, the project marks an important move to relieve pressure on the Dutch ...

GIGA Storage has launched Amsterdam's largest battery project, "Giraffe" battery energy storage system (BESS) in Westhaven, marking a major milestone in the city's ...

In Amsterdam's Western Port, the Giraffe battery system has officially come online. Developed by GIGA Storage, the project marks an ...

Founded in 2018, GIGA Storage develops and operates large-scale battery energy storage systems that store sustainably generated electricity and deliver it when needed most.

GIGA Storage has officially launched its third large-scale energy storage project. The battery, called Giraffe, is located in Amsterdam's Western Port Area and, with a capacity of 10 ...
