We partnered with Aussie start-up Relectrify to repurpose 9 Nissan Leaf packs to create a 120kWh energy storage system that effectively takes our facility off grid.

Meets all Australian Standards for Remote Area Solar Systems, including the stringent requirements of the new AS-5139 battery standard. Cabinets are built and tested in our Darwin workshop to complete ...

Make your installation quicker and easier when you compliment your batteries with a pre-wired Rack Series cabinet built with high quality Australian components.

Until the mid-20th century, however, Australian society was, with some accuracy, regarded in the wider world as essentially British--or at any rate Anglo-Celtic. The ties to Britain and Ireland ...

Australia is a large, comparatively dry, and sparsely inhabited continent, almost as large as the 48 contiguous U.S. states. Australia, the only continent that consists of a single nation, is also the ...

Built with flexibility in mind, each cabinet features a durable mesh door that allows natural airflow while maintaining safety and accessibility. The reversible door design enables left or right opening to suit ...

Perfect for those who want an Australian-made BESS with Australian components. Designed for large domestic, commercial, industrial, and utility scale projects. A cluster that promotes flexible and ...

Designed to seamlessly integrate with your existing power infrastructure, these cabinets offer efficient energy storage in a compact, robust form factor. They are ideal for facilities requiring a clean and ...
