Does Colombia have a power purchase agreement for hybrid solar & Bess projects?

As of now, Colombia's reliability charge (Cargo por Confiabilidad) has encouraged hybrid solar +BESS projects to progress. Large energy companies have expressed that there are no Power Purchasing Agreements (PPAs) available specifically for stand-alone storage projects, making it harder to finance those projects.

Should Bess storage be paired with large solar assets?

The Dominican Republic's National Energy Commission (CNE) issued a resolution in February 2023 that requires BESS storage to be paired with large solar assets. However, the remuneration is not yet clear and developers are concerned about interconnection delays for their BESS assets.

What is the future of Bess in Latin America?

To provide a view of what is to come, AMI breaks down the status and opportunities of BESS in main Latin American markets. Chile passed an energy storage and electromobility bill in late 2022, making stand-alone storage projects profitable for operators.

Will a PPA add Bess in Puerto Rico?

Under ASAP, IPPs with existing PPAs with Puerto Rico's Power Authority (PREPA) would add BESS at their locations "on an accelerated basis," leading to an estimated 380 MW of additional contracted BESS capacity by 2026. Peru has no existing BESS regulation and is currently evaluating how to move forward with battery storage projects.

Panama signed a crucial agreement to advance its Energy Transition Panama, focusing heavily on Panama Solar Energy. This new partnership aims to improve Green SME Financing access and ...

Déployez votre système PV + BESS de manière efficace pour assurer votre indépendance énergétique, réduire les coûts et augmenter l'efficacité de votre installation.

Panama signed a crucial agreement to advance its Energy Transition Panama, focusing heavily on Panama Solar Energy. This new partnership aims to ...

At Sinoclix Energy, we specialize in guiding Chinese investors through M& A in European green projects, with a focus on BESS, solar PV, and wind projects.
