CODEMGE, through its investment fund Aerotec, last year invested R\$18.6 million in a 12% stake in Oxis Energy and intends for the production facility in Brazil to provide downstream integration for its ...

The Brazilian electrochemical energy storage market is experiencing rapid growth, driven by the integration of renewable energy sources, high electricity prices, and supportive ...

The production of refined lithium, a key component in most electric vehicle and utility-scale battery storage systems worldwide, is on target to ...

The inaugural meeting of a Brazilian industrial project to establish a domestic lithium-ion battery cell manufacturing industry heard the country has a competitive advantage in terms of ...

The production of refined lithium, a key component in most electric vehicle and utility-scale battery storage systems worldwide, is on target to maintain a record volume ...

The inaugural meeting of a Brazilian industrial project to establish a domestic lithium-ion battery cell manufacturing industry heard the country has a competitive advantage ...

Brasilia's energy transition isn't coming - it's here. By adopting smart storage solutions today, businesses and communities can secure reliable power tomorrow while supporting Brazil's ...

Lithium iron phosphate (LFP) batteries are a type of lithium-ion battery that has gained popularity in recent years due to their high energy density, long life cycle, and improved safety compared to ...
