Who makes generator connection cabinets?

Generator connection cabinets shall be manufactured by Berthold Electric Company of Chicago, Illinois. Please feel free to contact our engineering staff for application assistance. We build custom Generator Connection Cabinets (also "tap box" or "docking station") for a quick-connect station for a portable generator or load bank.

What is a Mfg generator connection cabinet?

States MFG generator connection cabinets provide an interface between portable and permanent generator sets and building distribution. Connection cabinets provide a safe, reliable, and convenient connection that simplifies temporary generator or load bank connections. Pad lockable hardware with hinged access doors for temporary cable connections.

When should I use a generator connection cabinet?

For facilities that already have on-site backup power, use a Generator Connection Cabinet for additional redundancy during permanent generator repair or maintenance, and/or for annual load bank testing.

What is a generator termination cabinet (GTC)?

Whether it is long or short term utility outage, facility maintenance, or whatever the needs are; AMP's GTC will keep you up and running. Our generator termination cabinets (GTC) are designed to safely connect and disconnect a portable generator to a building or portable piece of equipment.
