Renovatio Solar, a company from the Renovatio ecosystem, one of the main players in the field of solar energy and green technology in Romania, has completed the installation of 650 photovoltaic panels ...

Property developer NEPI Rockcastle has inaugurated Romania's largest rooftop photovoltaic facility, a 6.55 MW system powering a shopping centre in Bucharest.

These large-scale projects contribute significantly to the country's overall solar generation capacity, demonstrating the scalability and versatility of solar energy.

The new solar installations, equating to a 308% increase compared to the capacity deployed the previous year, have set a new record high since the early 2010s" surge in renewable energy. Solar ...

Since 2010, we have specialised in providing solutions for installing solar photovoltaic systems. We develop and produce solid mounting systems, easy to assemble on all types of roof; and ...

Between October 2023 and September 2025, the system proved that building fa#231;ades can serve as reliable energy generators, even in dense urban environments and without traditional energy storage ...
