Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

The company focuses on the operation of new energy vehicle charging pile systems, home and industrial commercial energy storage systems, and solar photovoltaic panels.

Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.

We can provide users with full-scenario lithium battery systems, and provide customized lithium battery solutions to high-end users. Click the link below to download technical documents. ScandPoint ...

Yes, the 30KWh Indoor Photovoltaic Energy Cabinet is designed to operate in both off-grid and on-grid conditions. It can seamlessly switch between these modes, ensuring continuous power supply and ...

Integrated PV Energy Storage Cabinet solutions--modular, easy to deploy, certified to international standards, supporting on/off-grid and peak-shaving applications with global delivery and support.

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.
