Upgrade your energy storage with the EVE C40 40135 battery and experience superior efficiency and reliability in every application. Perfect for both personal and professional use, this LiFePO4 cell is ...

Cylindrical design for easy integration, ideal for DIY or professional use. Whether for electronics, solar systems, or EVs, EVE C40 is your reliable energy source.

EVE C40 is a LiFePO4 cylindrical cell can be used for various applications. Small cylindrical design, high-energy density and fast charging. Click to learn more.

Cylindrical Battery Total Solution Battery solutions for garden tools, portable energy storage,home energy storage

The C40 cylindrical lithium battery 20000mAh 3.2V has an energy density of 184Wh/kg, while the LiFePO4 cylindrical cell C40 supports fast charging (up to 1C).

High-Capacity Energy Storage: The EVE C40 20AH lithium battery delivers exceptional performance for various applications, with a nominal voltage of 3.2V allowing for efficient energy storage in portable ...

In the realm of energy storage, the EVE C40 cell stands out as a premier option. With a nominal capacity of 20Ah and a voltage of 3.2V, this cylindrical lithium ion cell is designed to meet a ...

EVE's C40 cylindrical lithium-ion cell is a robust, high-capacity solution tailored for demanding energy applications. Its impressive capacity combined with low internal resistance makes ...
