Enel Green Power Chile has started the construction of the 205 MW Las Salinas battery energy storage system (BESS), part of a hybrid renewable plant combining solar, wind, ...

The \$1.3 billion hybrid facility would combine 1,004 MWp of solar PV, 152 MW of wind generation, and a battery energy storage ...

EDF Power Solutions Chile, a unit of France's EDF, won environmental approval for the USD 623.9 million Wayra hybrid project in Chile's Antofagasta region. The plan envisions 557 MW of ...

November 24, 2025 - Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage ...

Chile's flagship renewable project combines 180 MW wind turbines and 150 MW solar panels, supported by a 90 MWh battery storage system. The hybrid design ensures 24/7 energy supply, addressing the ...

Electricity generation from solar PV and wind power reached a record level in 2025, marking their highest participation to date in Chile's National Electric System. The milestone further ...

Enel Chile has launched the Don Humberto Energy Plant in the Santiago Metropolitan Region, an 81-MW solar farm combined with a ...

Electricity generation from solar PV and wind power reached a record level in 2025, marking their highest participation to date in Chile's National Electric System. The milestone ...
