Why does the Middle East prefer giant airport projects?

The Middle East bears witness to its preference for giant airport projects, which in themselves are testimony to its role as the world's intercontinental hub. Two projects in the UAE and Saudi Arabia weigh in at over USD60 billion between them.

How much do airport construction projects cost in Africa?

Source: CAPA - Centre for Aviation Airport Construction Database (ACD). There are 24 known infrastructure projects at existing airports in Africa, to a value of USD2.3 billion, or USD96 million each on average; well below the average figure elsewhere. Construction projects at existing airports in Africa tend to be on a smaller scale than elsewhere.

Should airport charges be adjusted to support airport expansion?

According to the ACI, airport charges must be adjusted to support this expansion. This will help airports cover costs and maintain quality while being mindful of affordability for airlines and passengers to ensure continued investment.

To meet this demand, airports will require \$151 billion in capacity expansion investments. By 2029, the Middle East aviation market is expected to reach \$33.7 billion, while global passenger ...
