Are Powerplus slimline cabinets suitable for outdoor or indoor projects?

PowerPlus "Slimline" cabinets are suitable for outdoor or indoor projects. The Slimline Range has a compact footprint which makes them ideal for smaller spaces. Designed and manufactured in Australia, the range brings a fresh modern look to energy storage for varying setups.

What is a custom built Battery Cabinet?

AUS-POWER Batteries custom built battery cabinets are the ideal solution for those larger installations or anyone requiring a secure, professional and practical installation. The cabinets contain two lockable doors (front and back) and removable side panels for easy access.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

How can a pre-wired rack series cabinet improve battery installation?

Ranging from small battery enclosures to cabinets, including gear trays you can pre-build and test in the workshop, simplifying site installation. Make your installation quicker and easier when you compliment your batteries with a pre-wired Rack Series cabinet built with high quality Australian components.
