Is solar energy a solution to Syria's electricity crisis?

After more than thirteen years of war, Syria's electricity crisis has only deepened, compounding the suffering of its people. The former Assad government failed to secure stable energy supplies, and as shortages worsened and fuel prices soared, the regime turned to solar energy projects as an alternative, seeking to mitigate the crisis.

Is solar energy a viable option in Syria?

As the electricity crisis worsens, solar energy is no longer just an option - it has become an unavoidable necessity. Yet the high cost of installing photovoltaic systems has pushed many Syrians to rely on subsidized loans, particularly those provided by the Renewable Energy Support Fund, which offers interest-free financing.

Did Siemens buy equipment in Syria before Assad collapsed?

In minute 2 of the video, German-made electronic equipment from Siemens was visible, while later on in minutes 3, 9, and 30, machinery bearing the Mitsubishi Electric logo appeared--clear indications that sanctioned technology had been procured and installed in Syria before the collapse of the Assad regime.

Damascus launches a fixed-tariff scheme for 2-10 MW green power and signs a deal with 20Solar Energy to build twin 100-MW solar plants, one with battery storage. Syria ...

It proposes the construction of three 100 MW PV solar plants strategically located near Aleppo, Damascus, and Homs, with future expansion plans to include Deir ez-Zur and ...

DAMASCUS, PA -- A solar array developer has filed in court after Damascus Township rejected its application. ... The developers want to build a 5-megawatt AC fixed-tilt solar panel system on a ...

EK SOLAR has deployed 127MW of monitored solar capacity across Middle Eastern markets since 2018. Our Damascus-certified engineers combine local knowledge with global technical ...

DAMASCUS, PA -- A solar array developer has filed in court after Damascus Township rejected its application. ... The developers want to build a 5-megawatt AC fixed-tilt solar panel system ...

Damascus launches a fixed-tariff scheme for 2-10 MW green power and signs a deal with 20Solar Energy to build twin 100-MW solar plants, one ...

So, I had no choice but to "bite the bullet" and install a solar energy system through a government-backed loan

- especially since it's interest-free." This is how Mulham Jaafar, a ...
