Why should a data center have scheduled preventative maintenance?

That's why scheduled preventative maintenance should be an integral part of any data center's building management. Our highly qualified Therma experts can spot potential challenges from a mile away and will help you avoid catastrophes before they happen.

Why is data center maintenance important?

With the increase in building automation and equipment, the importance of a properly managed maintenance and operations program isn't just procedural -- it's mission critical. Kroeschell offers data center maintenance service to ensure reliable operation of the critical mechanical systems installed in your facility.

Do you need a third-party maintenance service for your data center?

Interestingly, despite all the technical advancements in data center equipment, you still need people with the right training, experience and dedication to maintain and support high-performing hardware. That's where third-party maintenance services make so much sense for the health and uptime of your equipment.

Does Park Place offer data center maintenance?

Park Place provides cost-effective data center maintenance solutions, without compromising service quality and SLA contracts. If a return trip is needed to fix the same issue on the same device within 5 days, you get one month of support on the device free.

Properly maintained equipment can last up to three times longer than unmaintained equipment. Service contracts provide immediate service with no job quoting or order processing. Preventive ...
