-----

A high-efficiency DC variable frequency compressor is adopted and the fan speed is adjustable with the heat load in real time, saving energy and reducing noise.

With BENNING's INVERTRONIC compact range of inverters, the company offers highly reliable, cost-effective, single-phase, modular inverter systems which provide high-quality, maximum-reliability ...

Meticulously designed to deliver unparalleled reliability, efficiency, and high performance, our cabinets cater to diverse industries such as microgrids, renewable energy, and energy ...

The inviq dc cabinet air conditioner dc03hdnc1a is designed for communication base stations and uses 300w dc frequency conversion technology, high efficiency and energy saving, intelligent ...

High-performance 12KW intelligent DC power solution for base stations and backup. Provides reliable, efficient power for telecom and critical applications.

The Scout is a compact, high power density 12 volt rack mount DC power system that brings telecom power technology to 12 volt base station radio applications ...

OPUS Inverter Systems are robust, free convection cooled, N+1 redundant DC to AC power conversion solutions for critical infrastructure applications. Inverter systems can be integrated to OPUS Power ...

OPUS Inverter Systems are robust, free convection cooled, N+1 redundant DC to AC power conversion solutions for critical infrastructure applications. Inverter systems can be integrated ...
