Summary2025HistoryElectricitySolar powerNatural gasChallenges and future outlookSee alsoBy 2025, Lebanon's energy sector had made some progress, but many problems remained. The government received a US\$250 million loan from the World Bank to help improve the electricity sector, repair the power grid, and strengthen management, including creating a long-delayed electricity regulator. Renewable energy, especially solar power, continued to grow, mostly through private and small-scale systems, making up almost one third of total electricity capacity. Several new solar power ...
