President Luis Abinader attended the 27 November 2025 inauguration of the state-of-the-art Battery Energy Storage System (BESS) ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy ...

Imagine working on a critical construction project when the grid fails - now picture instantly switching to silent, emission-free backup power. That's the reality portable energy storage systems (ESS) are ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS).

The AES Dominicana Andres - Battery Energy Storage System is a 10,000kW energy storage project located in Santo Domingo, Dominican Republic. The electro-chemical battery energy storage project ...

To foster the development of energy storage, the Dominican Republic has established a supportive regulatory framework for this emerging technology. The national regulatory authority has ...

President Luis Abinader attended the 27 November 2025 inauguration of the state-of-the-art Battery Energy Storage System (BESS) located at the Azua Thermoelectric Central.

A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational by mid ...
