What is the iShares energy storage & materials ETF?

The iShares Energy Storage & Materials ETF seeks to track the investment results of an index composed of U.S. and non-U.S. companies involved in energy storage solutions aiming to support the transition to a low-carbon economy, including hydrogen, fuel cells and batteries.

What is the ESS ETF?

The ESS ETF is an European ETF that follows the performance of firms specializing in battery energy storage systems. The companies included are engaged in such categories as raw materials, manufacture, enabler, and emerging technologies. It is the second European ETF in this sector after BATT.

What is a Clean Tech ETF?

A Clean Tech ETF, such as the one mentioned in the Title, offers an opportunity to buy the stocks of companies engaged in advance material, smart grid, hybrid battery, and clean energy generation. The ETF's portfolio is composed of companies that manufacture, develop, distribute, or install these technologies.

Which companies does the Tesla ETF include?

The ETF's portfolio includes Tesla among its top holdings, along with Nio Inc., SolarEdge, Albemarle, Enphase Energy, and First Solar. The fund invests in 43 holdings in total and focuses on companies engaged in advance material, smart grid, hybrid battery, and clean energy generation manufacturing, developing, distributing, or installing.
