What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What is a MDU enclosure?

Our top-hinging, medium-security MDU enclosure provides protected access for multi-dwelling fiber or telecom equipment and features a durable powder-coated design, secure hinged door, ample cable routing space, and flexible mounting options for broadband and telecom distribution needs.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

Our top-hinging, medium-security MDU enclosure provides protected access for multi-dwelling fiber or telecom equipment and features a durable powder-coated ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

Our equipment enclosures and shelters are designed to protect vital telecommunications equipment from harsh environmental conditions, ensuring ...

Learn about their features, including weatherproofing, temperature control, and space optimization, making them ideal for outdoor installations in remote locations and urban settings.

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.
