Summary: Kosice, Slovakia's second-largest city, is now home to a cutting-edge electrochemical energy storage power station. This article explores the project's significance for renewable energy ...

With a grant of more than EUR2.1 million, the project is carrying out studies to prepare the way for the modernisation and hybridisation of the Cierny V&#225;h pumped hydro energy storage plant in ...

The Slovakian project will be the first of its kind in Europe, delivering gigawatt-hour-scale energy storage capacity to capture surplus electricity from VVB's hydropower stations and...

The Slovakian project will be the first of its kind in Europe, delivering gigawatt-hour-scale energy storage capacity to capture surplus electricity from ...

Leclanch&#233; is a world leading provider of low-carbon footprint energy storage solutions based on lithium-ion cell technology. Established in 1909 in ...

European Commission funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant in Slovakia. As battery storage becomes increasingly important in the ...

European Commission funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant in Slovakia.

"The project of constructing and operating ENGIE's first battery storage in Slovakia is a significant milestone for our company. As one of the European leaders in energy transformation, we ...
