We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

Feature highlights: This 220V Portable Mobile Digital Power Supply is designed for outdoor emergency energy storage, featuring a lithium battery with a capacity range of 252WH-756WH ...

What is a Bess system?At the heart of WEG's BESS solution is an advanced energy control and management solution. This sophisticated system coordinates different operation modes, ...

Photovoltaic energy storage cabinets are designed specifically to store energy generated from solar panels, integrating seamlessly with photovoltaic systems. Energy storage systems must ...

Microgrids using solar energy and LFP battery storage are an effective solution for rural or remote areas. These systems store solar power in LFP batteries for use during the night or cloudy days.

What is a Bess system?At the heart of WEG's BESS solution is an advanced energy control and management solution. This sophisticated system coordinates different operation modes, optimizing ...

The project, owned and operated by AES Distributed Energy, consists of a 28 MW solar photovoltaic (PV) and a 100 MWh five-hour duration energy storage system. AES designed the unique DC ...

Photovoltaic energy storage cabinets are designed specifically to store energy generated from solar panels, integrating seamlessly with photovoltaic systems. Energy storage systems must adhere to ...
