What is a telecoms cabinet?

These cabinets are enclosures that wrap around a telephone mast to house equipment for the mast. This telecoms enclosure is made from pieces of stainless steel with a powder coated finish. Precision design, immaculate finishing and swift manufacturing were required for a new electrical cabinet/box for an automated production machine.

What makes Canovate's Telecom cabinets unique?

Canovate's telecom cabinets include integrated fan systems and ventilation solutions to maintain efficient airflow and cooling. Organized Cable Management: Effective operation of telecom equipment relies on well-organized cable management.

What materials are used in telecommunication enclosures?

A choice of aluminium or steel panels or GRP with ply core. Our enclosures comply with industry standards and regulations, ensuring that telecommunication equipment housed within meets safety and performance requirements. We manufacture our outdoor telecoms street enclosures to IP55 specification using galvanised steel.

Are Canovate Telecom cabinets safe?

Canovate's telecom cabinets feature lockable doors and robust steel construction, protecting equipment from unauthorized access and external threats. Built with materials that withstand harsh conditions, these cabinets offer long-lasting protection.
