Can I rent a rack in a data center?

Physical protection of racks. In the data center you can rent both: open and individually locked racks. You can get to the server hardware only if the lessee (owner of the hardware) issues a temporary code for short-term access.

What size machine room should a data center rent out?

Data centers rent out machine room areas of 60'x110 cm or 80'x120 cm (for deep server racks). This area can accommodate a server and peripherals with a total power of no more than 20 kW. For companies that operate a fleet of their own IT hardware: racks, servers, uninterruptible power supplies, PDUs - the rental cost is reduced.

Will Data4 open a new data center in Germany?

February 2023: The French data center company Data4 will open a new site in Hanau, Germany. On the site of a former army barracks in Hanau, east of Frankfurt, P3 Logistic Parks, a European logistics real estate company backed by GIC, revealed plans for a sizable data center park last year.
