Should homeowners install solar panels in 2025?

Homeowners installing solar panels and batteries in 2025 are smart to try to get ahead of tariffs,utility rate increases,and the risk of the solar 30% Federal Investment Tax Credit going away early. However,they're faced with interest rates that are significantly higher than they were just a short couple of years ago.

According to Erik, the top three financing barriers are the lack of long-term contracts, the need for project off takers, and performance guarantees.
