What is a street lighting cabinet?

Street lighting cabinets allow to control the time of switching on and off the lighting of streets, parks, squares or objects. Depending on the needs, we make systems based on simple astronomical clocks as well as modern solutions using GPS, GPRS, GSM technologies.

Why do data centres need artificial lighting?

As maintenance, updates and controls are performed by operators. Data centres, or at least the IT room and technical rooms, have no access to natural lighting, requiring artificial lighting for the personnel to perform their tasks. Hence, the efficiency and

Who developed sustainable procurement guidelines for data centre?
