The following models represent typical configurations, but they can also be outfitted with additional components such as photovoltaic charging modules, parallel and of-grid switching modules, ...

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, ...

We offer indoor and outdoor solutions based on different climatic conditions, ensuring the durability and reliability of the enclosures. With an integrated vertical manufacturing approach, ...

Once the storage batteries arrive at your project site, you can follow our installation guide to complete the setup yourself. If needed, we also provide free remote support for installation and commissioning, ...

Once the storage batteries arrive at your project site, you can follow our installation guide to complete the setup yourself. If needed, we also provide free remote support for installation and commissioning, ...

The ELECOD Outdoor Cabinet ESS for PV Storage & Charging offers an integrated and scalable energy storage solution designed for photovoltaic energy ...

We offer indoor and outdoor solutions based on different climatic conditions, ensuring the durability and reliability of the enclosures. With an integrated vertical manufacturing approach, we ensure efficient ...
