Canadian start-up Aurea Technologies has developed a portable wind turbine that compacts down to the size of a water bottle and was designed to provide reliable, renewable energy ...

In this paper, a portable wind-photovoltaic power generation system (WPPGS) based on the foldable umbrella mechanism is presented. The proposed WPPGS is installed in the medians of ...

It sports two wind turbines stacked vertically, with folding blades that open out in the shape of a fan when needed, and a tripod-style base with built-in nails that let you firmly fix the AIR ...

Meeting the trend of clean energy production, Aurea's turbine can function round-the-clock, needing just eight miles per hour of wind to function. With stronger winds, Shine has the power ...

The world's first portable wind turbine that has all the functionality of a large wind turbine, scaled down to fit in your backpack. With Shine you can generate power anytime, anywhere the wind blows.

Vela 9 is a compact, foldable, and lightweight wind turbine with a focus on rapid set up without requiring tools. The final design is a 20W turbine that can be dismantled into a foldable umbrella structure and ...

The Mobile Power Station is a 12kW portable wind turbine that delivers low-cost, clean energy, when and where you need it. The wind turbine fits in a 20" shipping container, is towable by an ordinary ...

For those seeking a reliable power source while on the go, the Wind Turbine Generator Kit, 400W 12V/24V stands out as an ideal choice. This portable vertical wind turbine is perfect for ...
