Where can I buy a 25 kW solar system?

Featuring daily updates with the lowest prices on solar panels, SunWatts has a big selection of affordable 25 kW PV systems for sale. These 25 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

What is a 25 kW solar system?

These 25 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

How much space does a 25kW Solar System need?

A 25kW solar kit requires up to 1,650 square feet of space. 25kW or 25 kilowatts is 25,000 watts of DC direct current power. This could produce an estimated 3,200 kilowatt hours (kWh) of alternating current (AC) power per month, assuming at least 5 sun hours per day with the solar array facing South.

A free consultation is your gateway to unlocking the full potential of solar energy for your home or business. Let's tailor a sustainable solution together--fill out the form below, and let's begin.
