-----

LFP Battery Cabinet Modular design allows the system to scale out from 295 kW to 4.41 MWh. Fully equipped for rapid commissioning with support for truck transportation. Consistent quality ...

It is recommended to use semiconductor refrigerators for temperature control equipment, which are reliable in operation and require less maintenance, or DC ...

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, ...

It is recommended to use semiconductor refrigerators for temperature control equipment, which are reliable in operation and require less maintenance, or DC air conditioners dedicated to small battery ...

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal ...

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...
