What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3, 3R, 4, 4X, and 6. Our telecom outdoor cabinets are factory tested, field proven, and worry-free.

What are telecommunications enclosures?

Telecommunications enclosures are protective cabinets or racks designed to house communication equipment such as fiber optics, switches, and power systems. Their primary purpose is to shield these components from external threats, including environmental conditions, physical damage, and unauthorized access.

What is KDM outdoor telecom enclosure made of?

KDM outdoor telecom enclosures are made of stainless steel (including 304 stainless steel and 316 stainless steel), galvanized steel, and carbon steel. This makes them sturdy and reliable. At KDM, we provide a large selection of outdoor telecom enclosure sizes, types, and shapes. We can help size the right enclosure for your site.
