-----  
Where can I get a proposal for a solar PV project?

Request for Proposals: Project No. 10-001, Solar PV's at Water Reclamation Center. Available at 25 Salt River Project Agricultural Improvement and Power District. n.d. Request for Proposals for Solar Photovoltaic Energy and Renewable Energy Credits.

Who determines the final content of a solar PV solicitation?

Agency contract officers, attorneys, and engineers are responsible for determining the final content of any solicitation. Updated to the regulations, codes, and standards applicable to solar PV are changing frequently; it is the responsibility of agency managers to determine which guidelines (and which versions) apply. Figure 1.

Do local governments need to monitor solar system performance?

An essential component for ensuring that local governments receive the product or service contracted through an outcome-based solar RFP is the monitoring of system performance.

Why should a local government go solar?

Other possible reasons for a local government to go solar include, but are not limited to: having the system serve as a demonstration project, creating local solar jobs, or reducing greenhouse gas emissions - each of which will influence the outcome of the procurement process.

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and sample ...
