Should Greece invest in energy storage facilities?

Currently there is a growing interest for investments in storage facilities in Greece. Licensed projects mostly consist of Li-ion battery energy storage systems (BESS), either stand-alone or integrated in PVs, as well as PHS facilities .

Why is Greece turning its attention to energy storage?

This year the country is expected to score an even higher percentage of renewable electricity, although this success is accompanied by the thorny issue of curtailing surplus green electricity at times when the electricity system cannot accommodate it. Therefore, rather belatedly, Greece has turned its attention to energy storage.

Should Greece speed up energy storage development?

Greece's minister of the environment and energy Theodoros Skylakakis told a local energy conference in Athens earlier in July that the country is blessed with exceptional renewable energy resources and in order to reap the benefits of it, it should speed up energy storage development.

Does Greece really need energy storage?

Therefore, rather belatedly, Greece has turned its attention to energy storage. So far, the country is running a 1 GW program targeting standalone, front of the meter batteries. Greece has already run two tenders awarding about 700 MW of battery storage projects.

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and ...

Grid Reform and Green Ambition: Greece's Strategic Energy Shift Introduction In recent years, Greece has emerged as one of Europe's most dynamic and forward-looking energy markets, ...

The government is now working a new plan, which will allow the colocation of batteries with existing solar plants as well as standalone, in front of the meter battery energy storage systems.

The review also reveals that numerous applications fail to inform longer-term planning (i.e., to cover the critical decades ahead, towards decarbonisation), regional aspects, and/or key aspects of the ever ...

As Managing Partner of Wattcrop, I had the pleasure of participating in a panel of experts from organizations representing the Greek energy market. The discussion focused on key issues ...
