-----  
What is an outdoor Telecom cabinet?

Technologies such as digital transformation, Industry 4.0 and Big Data create revolutionary differences in our lives. Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

Why do oil and gas field communications need high capacity wireless networks?

Oil and gas field communications require reliable and resilient, high capacity wireless networks that operate over large areas under extreme environmental conditions.

Why do oil & gas producers need wireless communications?

Wireless communications are well-suited for the oil and gas industry, especially given the often remote locations of production facilities, both on- and offshore. In the past, satellites provided producers with high-latency, low-bandwidth communications sufficient for transmitting telemetry data.

Oil companies have used WiMAX and other outdoor wireless technologies for some time, but the ecosystem for Private LTE gives them superior reliability, latency, and throughput performance. ...

With integrated North American manufacturing facilities and in-house engineering expertise, we can quickly customize our cabinets and enclosures to precisely meet the needs of your ...

Oil companies have used WiMAX and other outdoor wireless technologies for some time, but the ecosystem for Private LTE gives them superior reliability, latency, and throughput ...

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.

Purcell Systems responds with highly configurable, thermally managed outdoor rack enclosure solutions that address all power, thermal, acoustic, cabling, and quality requirements.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular ...

Wireless networks used in the mostly remote, harsh operating conditions of the oil and gas industry not only
