Premium cylindrical LiFePO₄ cells with 3,000+ cycle life, fast charging, and superior safety. Available in 18650, 26650, 32650 formats for industrial applications, ...

High-power lithium iron phosphate batteries are now a reality. They can be used as storage cells or power sources. In addition, Lithium Iron Phosphate batteries are among the longest lived batteries ...

Premium cylindrical LiFePO₄ cells with 3,000+ cycle life, fast charging, and superior safety. Available in 18650, 26650, 32650 formats for industrial applications, energy storage, and electric vehicles.

We manufacture custom lithium iron phosphate battery packs and assemblies for many applications. Our battery design team uses the latest mechanical and ...

Charging stops automatically below 32% (0°C) and resumes above 41% (5°C); discharge cuts off below -4% (-20°C) to prevent cold-weather damage. Delivers 1280Wh usable capacity and 100A ...

For years, lithium iron phosphate batteries have lacked a truly durable, long-lasting option that's easy to monitor and safe to use. Having tested several models myself, I can say that the ...

We manufacture custom lithium iron phosphate battery packs and assemblies for many applications. Our battery design team uses the latest mechanical and electronic design tools to optimize the reliability, ...

Charging stops automatically below 32% (0°C) and resumes above 41% (5°C); discharge cuts off below -4% (-20°C) to prevent ...
