How much do solar panels cost in San Jose?

As of May 2024, the average solar panel system costs \$2.59/W including installation in San Jose, CA. For a 5 kW installation, this comes out to about \$12,951 before incentives, though prices range from \$11,008 to \$14,894. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in San Jose?

While a 5 kW system will only cost you \$12,951 in San Jose, CA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in San Jose, CA?

Are solar panels a good investment in San Jose?

Solar panels can save you money on power bills over many years, but they can also be a big investment. That's why many San Jose homeowners decide to finance their solar panel systems to make going solar more affordable.

How much does a 10 kW solar system cost?

This is a hard question to answer exactly, because the cost depends on a few different factors. Broadly speaking, it costs about \$13,650 for a 5-kW system and \$27,300 for a 10-kW system after the ITC is applied. You can expect to pay more if you want other solar equipment or more efficient panels, or if you have higher-than-average energy needs.
